## Summary

Results-driven Frontend Developer with 2+ years of experience in building intuitive and responsive user interfaces using React, NextJS, and other modern web technologies. Proficient in integrating RESTful APIs and conducting thorough code reviews to maintain high code quality. Proactive mentor with a track record of independent project development using React and React Native Expo. Committed to staying updated with industry trends and delivering innovative solutions.

## Skills

**Technical Skills** HTML/CSS/Javascript · ReactJS · Typescript · NextJS · Gatsby · Node · Express · TailwindCSS · Jest  
**Database** PostgreSQL · MongoDB · Firebase  
**Languages** Native Spanish · Fluent in English

## Work Experience

### Ahinko International

[Remote](#)

FRONTEND DEVELOPER

Feb. 2022 - Present

- Led the frontend development efforts as the primary React developer in a project focused on restructuring a website from one programming language to another, resulting in a more intuitive and user-friendly experience and a 20% increase in user engagement.
- Conducted thorough code reviews, providing constructive feedback and suggestions to improve code quality, maintainability, and adherence to best practices.
- Designed and implemented a seamless and intuitive user experience using React Native and Expo, resulting in a remarkable 40% increase in user traffic within the app.
- Actively participated in team discussions, providing valuable insights to improve project workflows and development methodologies.

### Applaudo Studios

[Remote](#)

FRONTEND DEVELOPER

Sep. 2021 - Feb. 2022

- Played a key role in implementing state management using Redux, effectively managing application state and enhancing user interactions.
- Successfully conducted testing with Jest, ensuring robustness and reliability throughout the application, while also improving the team's confidence in the codebase.
- Assisted in optimizing React applications for top-notch performance, skillfully applying code splitting, lazy loading, and other performance optimization techniques.

### Kronoscode

[Remote](#)

FULL-STACK DEVELOPER

Feb. 2021 - Sep. 2021

- Implemented RESTful APIs and optimized database queries to improve application performance and response times.
- Identified and resolved bottlenecks, and implemented caching mechanisms, leading to a 50% improvement in application loading speed.
- Successfully implemented complex frontend features in React, resulting in a 20% boost in user engagement and a 10% increase in average time spent on the platform.
- Utilized Django ORM for efficient database management, data modeling, and query optimization.

## Education

### UAM (American University)

[Managua, Nicaragua](#)

BACHELOR'S DEGREE

2017 - 2021

- Systems Engineer.

### UAM (American University)

[Managua, Nicaragua](#)

PROJECT MANAGEMENT

Jun. 2021 - Dec. 2021

- Participated in a hands-on learning experience where we created a product from inception to market.
